

Waste Management Europe

Exhibition & Conference

15-17 MARCH 2022
BERGAMO, ITALY

Committed to a Greener Planet

Call for Papers is now open

Waste Management Europe, conference and exhibition, will be the place for all stakeholders in the waste management sector to come together and discuss the challenges they face and the solutions they are developing.

Waste Management Europe will bring together industry leaders, innovators, buyers, regulators and governments to network, collaborate and debate how humanity can best manage its waste in the future. Waste management is an international issue and, while being held in Europe, the event will have a global reach, including innovation and best practice from around the world.

Alongside the strategic/policy sessions – sessions that will be filled by invitation only – the conference will also feature a series of technical sessions that will tackle issues within waste management in more granular detail. **In order to ensure the best possible content, from those at the cutting edge of their field, we are opening a call for papers.**

If your organization is interested in participation and you think that you have a topic or idea in which our audience would be interested, we invite you to submit a proposal by the deadline of Friday the 3rd of December 2021. Once we have received all submissions, we will consider each one and inform you whether or not your proposal is successful.

Those successful in being offered a place on the agenda as a result of the call for papers will be given full access to the entire three days of the exhibition and conference, plus associated networking receptions.

Examples of topics on which we are interested in receiving proposals include:

- Bio and Agricultural Waste
- Chemical Waste
- Energy and Heat Recovery Technology
- Hazardous Materials Waste
- Landfill Management
- Medical Waste
- Metal Waste
- Paper and Cardboard Waste
- Plastic Waste
- Project Management & Finance
- Recycling and Reclamation Technology
- Regulation and Legal Issues
- Skills and the Waste Management Sector
- Sustainability and the Circular Economy
- Textiles Waste
- Water Waste

To submit your abstract please visit wme-expo.com/cfp
Submission deadline is December 3rd.
